I became interested in real estate since my freshman year after attending the real estate club meetings. I enjoy speaking with industry professionals at networking events and learning about what they do for a living. I will be interning this summer and fall with Principal Global Investors as an Asset Management Intern in Des Moines. I hope to learn as much as I can in 7 months to bring what I have learned back to the classroom.

I chose real estate as a second major because of the variety options it presents with my finance major. I will also be interning this summer with Kum & Go as a Store Development Intern in Des Moines. Although I am just at the beginning of my coursework with real estate, I look forward to learning more and seeing what opportunities the future will bring.

When I came to college I had no idea that real estate was an option for a major let alone be an interest of mine. My freshman year I was brought along with some older friends to a real estate club meeting and that first meeting has led me to want to work in the industry upon graduation. I'm very thankful for UNI's real estate program for providing opportunities like the NAIOP challenge to help further me in my development.

My parents have been involved in real estate ever since I can remember and that really drove me to get involved in real estate at UNI. I enjoy the outdoors: hunting, fishing, and hiking.
