

The Metropolitan Council and MN Dept. Employment & Economic Development present a **Brownfield Workshop**

You are invited to attend an information session to learn about programs that assist with the cost of cleaning up contaminated land. Over \$8M in grant funds in addition to low cost loans are available to investigate or clean up contaminants associated with real estate development.

State and federal funds are available for environmental investigation and cleanup activities at sites with:

- Agricultural chemicals
- Asbestos and hazardous materials
- Dry cleaner chemicals
- Petroleum contamination
- Groundwater contamination
- Soil contamination

Agency representatives will discuss programs and funds available from:

- MN Department of Employment and Economic Development
- Metropolitan Council
- Hennepin County
- Ramsey County
- MN Pollution Control Agency
- MN Department of Commerce
- MN Department of Agriculture
- MN Department of Health

Materials will be provided.

Cost:
FREE!
